

Mayor, Commission Re-elected

HOSEA FOSTER

PAUL LINDSEY

BOB BELLAH

Hosea Foster, Bob Bellah and Paul Lindsey were re-elected to the city commission in an election held Tuesday.

Only 95 voters turned out to cast ballots. In the city there are a possible 1,500 qualified voters.

All three were unopposed in the race, however a few write-in votes were registered.

In the race for mayor, Foster received 86 votes, Charles Donnell 5, W. A. Warren 3 and Jack Jennings 1.

In the races for the two commission posts, Bob Bellah received 91 votes, Paul Lindsey 89, Charles Donnell 2 and Bill Sternenberg 1.

The votes in Tuesday's election were canvassed this morning and the winners were sworn in.

Foster, Bellah and Lindsey are finishing their first terms as heads of the city government. In the election two years ago, they were unopposed on the ballot.

Marcus Presley Taken by Death

Marcus E. Presley of Amarillo, brother of C. M. Presley of Canyon, died Monday afternoon at his home in Amarillo.

A resident of Amarillo since 1927, Mr. Presley, 79, was a retired maintenance man for the public school system. He moved to Amarillo from Montague County.

He was born Feb. 14, 1879, in Decatur, Texas. Mr. Presley was a member of the Primitive Baptist Church.

Others surviving include his wife, Mrs. Mary Presley; two sons, William Y. Presley and Clyde L. Presley, both of Amarillo; four daughters, Mrs. R. H. Seymour, Amarillo, Mrs. A. L. Cummings, Escondido, Calif., Mrs. E. L. Blundell, Needles, Calif., and Mrs. J. A. Tucker, Oxnard, Calif.; two other brothers, Dr. J. A. Presley, Bowie, and T. I. Presley, Fort Worth; a sister, Mrs. A. H. Summerford, Hamilton, Texas; and 11 grandchildren.

Red Buffaloes Whip Whites 20-0 In Final Spring Training Thriller

The Buffalo Red Team tromped over the White Team 20-0 before a crowd of 1,000 who sat in football weather Thursday night to see the final intrasquad game of the West Texas State spring training.

The Red Team, composed of the first and third squads, dominated the game, scoring in the second, third and fourth quarters.

The team scored on a pass, a keeper and lateral and at the end of a 74-yard drive.

The White team threatened in the second quarter by moving the ball from their own eight to the Red two before losing the ball.

The first score came late in the second quarter when Halfback Dave Corley sailed a long pass to Ronnie Mills on a play that covered 70 yards.

In the third quarter, Quarterback Bobby Davis flashed into the clear on a keeper, traveling from the White 39 to the 20 where he was hemmed in. Davis lateraled to Mills, who scooted the remaining yardage. Archie Souter kicked the extra point.

In the last quarter, Jimmy Hadaway ended the 74-yard drive with a three-yard plunge for the third touchdown. Souter converted again.

The Red Team led by 12 first downs to nine; made 224 yards from scrimmage to 89; completed one pass out of six for 70 yards to four out of 16 for 80 yards; intercepted one pass to none by the Whites; kicked six times for 25 yard average to five kicks for 28 yard average by the Whites; and fumbled five times to three times. Both sides recovered two of their opponents fumbles.

Write That Letter- But Sign It Please

Since the publication of an editorial concerning modern music and Elvis Presley on March 28, The Canyon News has received several letters condemning the editor and the editorial stand.

However, none of the letters were signed. The Canyon News has a policy against publishing unsigned letters. If those who have already sent letters will come by and sign them, they will be published next week.

Anyone who wishes to have a letter published may do so, however, the letter must be signed.

Building Permits Top \$200,000

An additional \$44,250 in building permits issued during March bring the 1956 total to \$239,150 for an average of \$79,716 for the first three months.

The 1955 average was \$88,111 per month, or a total of \$1,057,335. Permits issued in March include: W. H. Wheeler, 1400 Hereford Highway, tourist court, \$9,000, March 3.

Crawford Kiker, 2404 Sixth Avenue, addition, \$2,000, March 22. Cecil O'Donald, 1210 Eighth Avenue, addition, \$2,000, March 22.

Implement Dealers Plan Display Of Farm Machinery Here April 21

Farm machinery dealers of Canyon will stage a farm machinery display and demonstration on Saturday, April 21.

This giant demonstration, sponsored by the Canyon Chamber of Commerce, will be under the direction of the Agriculture Committee.

The site for the display and demonstration will be west of Canyon on the highway. The exact location will be announced later.

The actual field demonstration will be held in the afternoon from 2 to 5 p. m. The machinery will be on display most of the day.

This cooperative effort by the machinery dealers in Canyon is being held to acquaint farmers in this area with new developments in farm power equipment and machinery.

Cancer Drive Underway Now

Workers of the Randall County Chapter of the American Cancer Association met in the college cafeteria Thursday afternoon to map out the campaign for house to house solicitation which will be held Thursday, April 5, through Sunday afternoon, April 8.

Forty block captains were selected and given instructions. The goals are to reach every person in Canyon and Randall County with life-saving facts about cancer and to raise the \$1,600 quota for Randall County.

During the month of April each adult resident of the city will be asked to strike a double blow to cancer—with a checkup and a check—a medical examination as a safeguard against the disease and a contribution to support research, educational and service programs of the Society.

Avent Lair Recovering from Injuries

Randall County Criminal District Attorney A. W. Lair is "resting comfortably" in Neblett Hospital after suffering injuries in a tractor accident on his farm Friday night.

His injuries have caused two condemnation suits scheduled for this week to be postponed until a later date. Suits scheduled this week were against Jack Livesay and the Veterans Land Board and against Sid Carter.

Tuesday night Lair said he expects to return to work Monday. He is suffering from a broken shoulder, four broken ribs and a dislocated arm. The arm was to be set this morning.

Lair said he and his son, Mark, were on the tractor when it turned on its side. He said Mark was on his lap.

When the tractor fell on top of Lair, the wheel was resting on his back and was still turning. Lair said he managed to reach to the switch and turn the motor off.

He said he thought his son had been injured or killed. However, Mark was uninjured and saw a way to get out from under the tractor.

Lair said Mark told him, "Daddy, if you can move just a little bit I think I can get out." Lair said he moved and Mark crawled out and went for help.

The accident occurred about 7:30 p. m. Friday.

Water Safety Course Offered

A 15-hour water safety instruction course will be offered at West Texas State College for five days, opening Monday, by Hilton Gilliam, Red Cross First Aid and Water Safety field representative.

The course will be open to persons who have already passed their senior life saving test and preliminary work in water safety instruction.

Gilliam will teach the course Monday through Friday from 7 until 9 p. m. in the indoor swimming pool in the WT Administration Building. Persons interested may sign up with Miss Donna Marburger, instructor in physical education at WT.

Gilliam, of Brownwood, has been an instructor in Red Cross safety services since 1930. He joined the national staff of the organization in 1942.

A former coach and physical education instructor, Gilliam formerly served as chairman of the Health and Physical Education Section of the Mid-Texas Teachers Association.

A veteran waterfront director at summer camps, Gilliam has conducted First Aid, Water Safety, and Accident Prevention Instruction courses in most of the 16 states which comprise the Midwestern Area of the American Red Cross. He has trained scores of instructors in public schools, colleges, and military installations.

James and Elaine Cundiff of the University of Texas spent the holidays with their parents, Dr. and Mrs. E. J. Cundiff.

Dorothy Neblett spent the Easter holidays with her parents, Dr. and Mrs. R. A. Neblett. Miss Neblett is enrolled at the University of Texas.

The senior high band, with 62 players, will present We, the People Concert March (Bradley), Scotch Folk Suite (Davis), Sunset Soliloquy (Walters), Ballad for Evening (Morrissey), with Rusk as soloist, TV Suite (Walters), Clapalongo Playaway (Dilley) and Washington Post March (Sousa).

The junior high band, with 50 players, will present Sun Maid March (Lee), Corla Shore (Dillon), conducted by Miss Dorris, Singing Sands Overture (Foreman) and Little Irish Suite (Jackson).

The three bands in the Canyon Public Schools will present a joint concert at 7:30 p. m. Friday in the High School auditorium.

Admission will be 25 cents for students and 50 cents for adults.

Included on the program of the concert will be a baritone solo by Glenn Rusk, junior member of the high school band, and the appearance of Ann Dorris, West Texas State student, as guest conductor of the junior high band.

The sixth grade band, composed of 36 players, will present Grand March (Skornicka), Sunest Memories (Buchtel), Junior Prom Waltz (Forest) and The Commander March (Buchtel).

Views and Comments

Returns from the straw-vote poll of Randall County citizens were not too good. In fact, they were not good at all.

Only 14 persons answered, and at least 400 to 500 would have been necessary to get a very good sampling of the opinion of the voters.

However, here are the ways that 14 county citizens will vote. Seven favor Eisenhower for president, three like Stevenson, one likes Kefauver and one is for Johnson.

Price Daniel leads the gubernatorial preference list with seven backers, J. Evetts Haley is next with five; John White and John Ben Shepperd each have one.

One voter wants Price Daniel, and no one else, as Senator. Two like Allan Shivers, two John White, one Ben Guill and one Ben Ramsey.

Three favor interposition, one is against, one says he can't find the word in his dictionary and the rest left the question blank.

Comments were received from two responders. "The Presidency: Personally Eisenhower and Johnson are ruled out because of their recent heart attacks; surely both the Republicans and Democrats have men who are physically fit for the presidency; likely to live out the term; and willing to stay on the job."

"The American people may feel great sympathy for an ailing president, but shouldn't be expected to have their radio, television and newspapers filled with step by step reports on heart attacks. I'd just as soon listen to the day by day report on a surgical operation."

"For Governor: Although not definitely in sympathy with any of the candidates, at the present time, I prefer John Ben Shepperd."

"For Senator: I think Sen. Daniel should by all means complete his term of office. People shouldn't accept offices that they are unwilling to serve for the time expected."

"Interposition: I think this problem is too big for a solution through interposition. Both the North and the South will need to yield certain points, but the South needs time to adjust gradually—and comfortably. Leaders among the white and black races need to realize that both have much to gain by patience and understanding."

Otto Przilas, out at Umbarger, wrote a letter with his form.

"Anent to your questionnaire, I want to add why I favor Ike."

"Well, for one thing, he knows from experience what it means to have our young men killed. It is unnecessary for him to glorify his own personal ego, or like that Red Herring Harry, to swell his own empty thing he calls a head."

"We have two boys and they are both in the service. One in the Army in Germany and the other in the Navy air force. So, let's stay away from those blood smeared dollars."

"The only vote I ever am ashamed of casting is the one I cast for that blood drinking Palestinian in 1932 on the Commiecat party ticket. So many of that party's membership would follow it down the line even if they would nominate Bulganin."

"So now I am an independent voter and let no party dictate to me."

Sound the dirge and hang up the crepe, the end of an era has come.

Starting last Sunday, the Santa Fe railroad is out of the land selling business. The railroad's land office in Albuquerque was closed, and the company has no more acreage for sale, although it still owns some 151,650 land grant acres in Arizona and New Mexico.

The railroad, along with other western railroads, was given sizeable acreages by the federal government as grants to help pay for the building of the right of way. The government gave the land in an effort to encourage construction of railroads through undeveloped territory, encourage settlers, increase the taxable wealth and to

strengthen and unify the nation.

In return for the grants, the railroads were required to transport government troops and military property at half-rates, until Oct. 1, 1946. Up until 1941, the railroads had to move all government property at half-rates, and mail at 80 per cent of the standard rate.

The Santa Fe major grant was one given the Atlantic and Pacific Railroad, which was taken over by the Santa Fe in 1897. The grant given the A&P RR lay in alternate sections along the right of way and stretched at times to 40 miles on either side. It included nearly 14,000,000 acres.

The right of way stretched from Isleta, N. M., 13 miles south of Albuquerque, to the Colorado River at Needles, Calif. Since it ran smack through the desert, most of the land grant was desert land, and was unsuitable for whole-sale colonization.

By 1897, the A&P had sold 5,300,000 acres at prices ranging from 50 cents to \$1 an acre. Since 1897, the Santa Fe has sold all but the small remaining portion at similar prices.

One of the last vestiges of the Old Frontier has faded into the past, and civilization crowds even closer.

Dr. J. A. Hill and the late Mrs. Hill both graduated from Thomas Arnold High School in Salado, Texas, in 1896.

Recently, one of Mrs. Hill's relatives found a graduation invitation from that year's exercises, and gave it to Dr. Hill. Inside, there's the program for a meeting of the Thomas Arnold Literary Society, featuring an address by the president, Joseph A. Hill.

In the graduation program is listed the reading of an essay by Miss Ola Davis, who turned out to be Mrs. Hill in later years.

"I don't remember being president of that society," Dr. Hill said. He said he remembers the graduation well, and has plenty of memories of the school and the literary society. But, he can't recollect ever being president of it.

"A good thing to remember in these days of all kinds of 'federal aids' is that the Federal government hasn't got a dime that it doesn't take away from the people. So it can't give anything to a school system, building programs, county welfare, flood control, crop surpluses or anything else without first having taken it away from the people."—Abilene, Kan., Daily Reflector Chronicle.

I received a letter in reply to the editorial last week about today's popular music, and I'd like to print the letter, but it is unsigned. The writer says I'm all wrong about the subject.

In the first place, the writer says the music is called "rhythm and blues" instead of "rock and roll." The letter also says, "Elvis Presley is one of the best singers in history that I have ever heard along with Fats Domino and hundreds of others." The name is Elvis Presley.—BC

Candidate Tells About Position

State Sen. A. M. Aiken Jr. of Paris, announced candidate for lieutenant governor, spoke to a half-hundred Canyon citizens during a coffee session in the college cafeteria Thursday.

Making a basically non-political speech, the co-author of the Gilmer-Aiken bill said he is in favor of better schools and better wages and standards for teachers. He said he is mainly interested in the school program because he has a 10-year-old boy that must attend the public schools.

Sen. Aiken said he would be in a position of greater power if he were the lieutenant governor. "A good many people have in mind that the lieutenant governor is a sort of an assistant governor. That is not so," he said.

He said the lieutenant governor has a "stick in his hand" in the power to appoint the members of the various legislative committees. A lieutenant governor can get any legislation passed that he wants, and can also block any legislation through his appointing powers, Aiken said.

"By the constitution, a lieutenant governor is a most important shaper of legislation by use of the committee appointments," Aiken said.

The senator was introduced by James Witherspoon of Hereford.

I GIVE YOU TEXAS

By BOYCE HOUSE

Carl Springer arrived in Eastland during the big oil boom, a young lawyer just out of the Army after World War I. He was quiet but friendly, with a greeting for everyone. One day, the manager of the Western Union said to a messenger boy, "Deliver this telegram." The boy looked at the name and address: "Leading Lawyer, Eastland, Texas." Eastland had over 50 attorneys.

The lad remembered the young lawyer who always said "Howdy" to him and he delivered the wire to Carl Springer. The result was a client, a lawsuit, a thousand-dollar fee—perhaps the biggest he had ever received up to that time. It was the real beginning of a brilliant career which ended in the summer of 1955 when Carl Springer died.

He had ability, energy, courage, loyalty, patience, courtesy—which is another way of saying "consideration for others." He was my friend.

We are continually told, we who live in any city, that taxes have to be increased because the population has increased. If the city adds 50,000 people, it is true that you need more policemen, firemen and garbage collectors but you also have 50,000 more people to pay taxes, so why can't they pay to provide their own services just as we who were already here were doing for ourselves?

I reckon I just ain't right bright.

A. Conan Doyle sold his first Sherlock Holmes story, including all rights, for approximately \$125. It was "A Study in Scarlet." The author did not realize that he had created a character who would gain world-wide fame and immortality, his exploits read eagerly by each new generation.

In fact, Doyle grew tired of Holmes and "killed" him but had to bring him back because of public demand. The writer thought his historical novels were his greatest achievements and attached little importance to the man with the hawk-like features and the keen mind who dwelt on Baker Street, wore a faded dressing gown and played the violin for relaxation. Holmes is more real than your next door neighbor.

GOOD ENGLISH

Jobs are scarce in China, as this application for a stenographic position attests:

"Sir — I am Wong. I can drive and my English is great. My last job has left itself from me for the good reason that the large man has dead. It was no fault of mine so, honorable sir, what about it? If I can be of big use to you I will arrive at some date that you should guess."

Geology Professor Publishes Article

Jack T. Hughes, curator of anthropology at the Panhandle-Plains Historical Museum and assistant professor of geology at West Texas State College, is the author of an article in the 1955 Bulletin of the Texas Archeological Society, published this week.

Floyd V. Studer of Amarillo, curator of archaeology for the museum, served as 1955 president of the society. Dr. Alex D. Krieger, research scientist in archaeology at the University of Texas, was editor of the 1955 bulletin.

Hughes' article, titled "Little Sunday: An Archaic Site in the Texas Panhandle," aims at correcting the statement in the recently published "Introductory Handbook of Texas Archeology" to the effect that "practically nothing is known about the Archaic Stage in the Texas Panhandle." By the Archaic Stage, archeologists mean Indian cultures before pottery was used.

The statement in the handbook that "no sites have yet been located in the Panhandle, where a definite complex can be defined" is not strictly accurate, Hughes points out.

He tells in his article of the survey conducted by the Panhandle-Plains Historical Museum since 1952 which has revealed a great many Archaic sites in the region.

"However, it is true that no reports had been published on these sites up to that time," Hughes wrote. "The purpose of this article is to remedy that situation."

He referred to a paper in the 1955 Panhandle-Plains Historical Review written by him and Curtis D. Tunnell, a WT graduate now serving in the Naval Reserve. The paper described in detail an Archaic bison kill in the vicinity of Tunnell's home town, Turkey.

"Although none of the Archaic sites located by the museum has been excavated, and few of them have been tested, surface examinations at several have produced significant results," Hughes said.

He centers on what he says is one of the richest and purest such discoveries in his report, the Little Sunday Site. This is located in eastern Randall County and was discovered in 1954 by Dr. Don E. Savage, former WT student who is now vertebrate paleontologist at the University of California at Berkeley.

Hughes earned his B.A. and M.A. from the University of Texas. He attended the University of Mexico's school of archaeology one year on a Farmer Fellowship from the University of Texas, and he has completed all requirements except his dissertation for his Ph.D. in anthropology from Columbia University.

For three years Hughes was archaeologist for the Smithsonian Institution, Washington, and made surveys of the Missouri River drainage where dams were to be built.

He also directed a joint project of the National Park Service and the University of Texas for archeological salvage in the Falcon Reservoir region in the Rio Grande valley.

Mrs. G. C. Cole spent the weekend in Wichita Falls with her daughter and family, Mr. and Mrs. Floyd Dunsforth.

Earlene Graybill of Kansas City spent Monday with her aunt, Mrs. George Hill. She was enroute to California.

Eugene Hill spent the Easter holidays at Grand Canyon, Ariz., where he attended the Easter sunrise service.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS
OF THE 18TH CONGRESSIONAL DISTRICT

The Danger of Propaganda
There are several kinds and forms of propaganda. It is simply a technique of influencing people to believe certain ideas. It could be called concentrated advertising. Its powers can be used for both good and bad purposes.

The recent developments in Russia concerning the condemnation of Stalin proves how completely people can be absorbed and controlled when they refuse or fail to think for themselves and accept at face value those things that they are told.

Stalin had been built into a living God in the eyes of the Russian people by the mechanics of false propaganda. His death afforded the propagandists an excellent opportunity to increase the devotion of the Russian people to this man.

They placed him in the tomb with Lenin and promptly proceeded to build him up to a more exalted position, if such was possible. This was clearly evident to those of us who visited in Russia.

We could joke with the Russians on any subject except Lenin and Stalin. The minute any of us made a statement that could be interpreted, through the most strained construction, as an indirect reflection on either of these men, their abilities or their accomplishments, we were promptly called down and advised in a very pleasant but firm manner to cease and desist.

Now we are being told, in effect, by the heads of the Russian government, that Stalin was a scoundrel, a rogue and a blackguard. There is no reason to believe that the present Russian officials, who now have charge of the propaganda machine, will not be successful in tearing this man to pieces.

Their success will definitely prove how completely effective propaganda can be. It seems to me that they have made one mistake in picking on Stalin, alone.

If they follow their past procedures, their success in destroying Stalin will require the destruction of all material things commemorating him.

The entire country and several of the satellites are literally loaded with statues and tremendous portraits of Stalin and Lenin shaking hands with their arms unfolded or otherwise embracing.

Dr. Waldo E. Houghton

each other.
If they had included Lenin in their purge of the deceased, they could destroy the whole statue or the whole portrait, and the expense would be much less than destroying Stalin without marring Lenin.

Incidentally, they will have to change the name of their top automobile, which is known as the "Zis." The "s" stands for Stalin. There will probably be a hot debate as to whether or not the name will be changed to the "Zib" for Bulganin or the "Zik" for Khrushchev.

The most effective weapon against bad propaganda is "truth." That is the truth, the whole truth, and nothing but the truth. In order to utilize this weapon to the best advantage, each individual must use his own thought processes with which God has endowed him, and very carefully weigh those things that he sees and hears. Otherwise, we, too, could easily become the victims of this insidious practice.

Political Predictions
I pointed out in a previous news-letter that certain forces in this country had decided to limit the Democratic Party to three possible nominees, namely Harriman, Kefauver and Stevenson.

These forces proceeded to build up these three men as potential candidates of the Democratic Party and to promptly discount the chances of others who might aspire to this position. The truth of this prediction is becoming more evident each day.

The obvious purpose is to cause a three-way split in the Democratic Party. My prediction is that in the final analysis, these practices will fail and the Democratic Convention will name a nominee other than these three.

There is a possibility of one of them being on the ticket as Vice President, but the man leading the ticket will be none of these three.

Legislative Gymnastics
Last week Congress passed a law to permit the Department of Justice to violate a law in order to employ two individuals to help enforce a law. Some merry-go-round.

The Department of Justice had requested that bills be passed authorizing it to hire two retired Army Generals who could not be hired otherwise, without the Department of Justice being in violation of the law.

Some bus companies apparently issue timetables so that their passengers can determine how long it will be until the next scheduled bus won't run.

It'll soon be time for mankind to put on its annual entertainment for the animal kingdom. Crowds will be flocking to the zoos.

On Cruise

Mrs. Ed Harrell is pictured aboard the SS Del Mar shortly before sailing from New Orleans on a vacation cruise down the east coast of South America.

Mrs. Ed Harrell Goes to Argentina To "Eat Some Steak," She Relates

"I have to go to Argentina to eat some steak," Mrs. Ed Harrell told a publicity man for the Mississippi Shipping Company, Inc., before leaving for a cruise to South America.

She hastened to add that "Texas beef is surely superb." Mrs. Harrell pointed out that she is a retired rancher.

On Mrs. Harrell's cruise she will visit the ports of St. Thomas in

the Virgin Islands; Rio de Janeiro; Santos, Brazil; Montevideo; Buenos Aires, and Curacao, in the Netherlands West Indies.

Mrs. Harrell left last week from New Orleans.

News In Canyon 25 Years Ago

A fire early Saturday morning routed Judge S. B. Orton and his family from his home. Extreme cold weather hampered the firemen and the home was burned to the ground.

The monthly Trades Day started out with a new plan of operation. Instead of big prizes, entertainment was to be offered. Plans called for a rodeo the first time, but it was postponed because of bad roads in New Mexico, where the stock was to be obtained. Instead, an old fiddler's contest was held.

To go along with the Trades Day, the Canyon Supply Company was offering 100 pairs of shoes at 25

Time To Plan Summer Pasture

COLLEGE STATION—Summer temporary pastures should form a very important part of the year-round grazing or pasture program on the farms and ranches of the state.

E. M. Trew, extension pasture specialist, says good summer temporary pastures just don't happen. They must be planned well in advance and the same care given to seedbed preparation, seeding the right plants and fertilization as is used in connection with other cash crops.

Such pastures will permit a resting period for permanent pastures, provide grazing when permanent pastures are on the decline, and provide a means for building up feed reserves.

Sudangrass, says Trew, is the best bet in most areas of the state. It can be planted any time after the danger of frost is past and until the supply of moisture becomes short in the summer. From one to two acres should be planted for each animal unit.

Row plantings are best for grazing but broadcast or close drilled plantings will produce the most hay if it is to be cut only once, says Trew.

Row plantings should be made at the rate of 7 to 10 pounds of seed an acre while 20-25 pounds is recommended for broadcast or close drilled plantings.

Staggered plantings made at intervals of two to four weeks may extend the grazing season until late fall. The different plantings should be fenced separately in order to get maximum production, advises Trew.

Two varieties of this old favorite are generally available in the state. Common is widely grown but may be damaged by leaf diseases in the humid regions of the state. Sweet carries some leaf disease resistance and may outyield common in humid seasons.

Trew recommends rotation grazing for getting the most from summer pastures but this should be planted for now.

Production can be increased and quality of the forage kept high by rotation grazing. Old stems should be moved after grazing to keep new growth coming. Growth not utilized by grazing should be used for hay or silage.

A soil test made well ahead of planting will show what plant foods should be applied at seeding time. Side-dressing with 30 pounds of nitrogen an acre after each time the sudan is grazed down or cut, for as long as the plants are growing and moisture is available, will produce big dividends.

Trew says pearl millet may on the sandy, acid soils of East Texas outproduce sudan. He recommends a visit with the local county agent for those who desire detailed information on summer pastures for their particular section of the state.

April showers bring May flowers and the rest of us a cold in the head.

State Capitol NEWS

By VERN SANFORD
Texas Press Association

Texans are going to have their say, if candidates have their way. Most candidates seem to be falling into the same pattern. They want letters from the "folks" — telling them to run for office. Some want 10,000 letters — some 25,000. Some just want letters. It's a new way to solve the postal deficit.

Sen. Price Daniel said he received, within a week, more than 25,000 letters.

Another "letter man," W. Lee (Pappy) O'Daniel, says he's been getting them by the basketful.

Ralph W. Yarborough reports that he has received reams of unsolicited letters urging him to run.

Another gubernatorial candidate, J. Evetts Haley, had this to say, "I didn't have to ask a single soul — much less 25,000 people — if I could run."

Johnson Challenged

In a fiery verbal blast, Texas Press Association president Russell W. Bryant of Italy told more than 100 newspapermen and women at a North and East Texas Press convention in Tyler that C. T. Johnson of Austin is ineligible to become a candidate for Lt. Governor.

Bryant distributed copies of a deposition taken in the 126th District Court at Austin on Oct. 1, 1955, in which Johnson testified under oath that he spent only \$125 in traveling the length and breadth of Texas while campaigning for Lt. Governor in 1954.

According to Bryant, Johnson testified he had driven 12,000 to 15,000 miles and that his total traveling expenses for the entire campaign period, as reported by him to the Secretary of State, amounted to \$125 — for gasoline, oil, tires, repairs, batteries, lodging and meals.

Filing of an inaccurate campaign expense report excludes Johnson from becoming a candidate, under state laws, Bryant said.

"You and I know that there isn't a standard make automobile on the road today that doesn't cost nearly two cents a mile for gasoline alone," Bryant told the convention delegates.

Capitol Area To Grow

Texas' Capitol area soon will take on a new look. Gov. Allan Shivers showed the Austin City Council plans for the expansion, and addition of two ultra modern buildings, plus nearly three blocks of additional grounds.

Sites, maps and architects' sketches for the new State Office Building and Supreme Court Building were presented to the council. Both will be three million dollar structures. The Court Building will be located a block northwest of the Capitol, and the Office Building a block northeast. They will face the Capitol and be joined by a 1½-block mall across Congress Avenue. Space for additional parking areas also is included in the plan.

Shivers also announced that the granite quarry near Marble Falls, from which granite used in construction of the Capitol was taken, has been re-opened. It is planned to use granite from the same source, for the new buildings.

Shivers is chairman of the state building commission which plans to begin immediately to achieve the necessary sites for the expansion. Contracts probably will be awarded next fall.

Financing of the building project, largest in the state's history.

was made possible by a constitutional amendment allocating the surplus from the Confederate pension fund for state buildings.

Law Enforcement Needs Studied

Vigorous action on many fronts is needed to combat Texas' climbing crime rate, said speakers at the Attorney General's Conference on Law Enforcement in Austin. Some conclusions, after the four-day conference:

By Attorney General John Ben Shepperd: Travis County should have an extra district court, two grand juries and a special appropriation for the district attorney's office.

By Department of Public Safety Director Homer Garrison Jr.: Since soaring juvenile delinquency can be principally laid to parents' failure to provide good citizenship training, Texas should have a law holding financially responsible, parents of youngsters who wantonly destroy property.

By Prison Board Member Dr. George Beto: Texas Prison System needs \$8.5 million to build housing for increased number of inmates, and must find additional profitable industries to offset upkeep costs.

By James P. Economos, director of the American Bar Association's traffic court program: All persons charged with a moving traffic violation should be required to appear personally before the traffic court judge.

By Author-Attorney Earle Stanley Gardner: Law enforcement has suffered from the outmoding of corporal punishment in the home and school.

Texas Acreage Cut

Acreage of principal Texas crops will be reduced by about 660,000 acres this year, the U. S. Dept. of Agriculture announced.

Accounting for most of the reduced acreage will be drops in cotton, rice, peanuts, corn and oats. Flaxseed, Irish and sweet potatoes also will be curtailed. Only hay acreage will be increased, and wheat will remain unchanged.

Short Snorts

Fifty students from the State School for the Blind are receiving swimming lessons. The Austin Lions Club is paying all custodial fees, and the Girl Scouts and Red Cross Water Safety Service Corps are taking part in the project.

Dr. J. E. Peavy of the State Health Department announced that polio cases this year showed a gain over 1955. Cases reported total 140, against 92 last year. More than 40 per cent of children under 10 have received at least one anti-polio shot, he said.

Public hearing on a petition of Railway Express Agency for increased first and second class express rates on intrastate traffic, is set by the Railroad Commission for April 4.

Canyon Women on Happy Program

Mrs. James P. Cornette, Dr. Leta Boswell and Dr. Ruth Lowes presented a Mental Health panel at the Happy Parent-Teacher Association meeting March 26.

Mrs. Jack Driskill, president, gave the welcome. Mrs. D. L. Allison read the PTA prayer. Louis Pippin presented the fifth grade ensemble in two musical numbers.

Nominations for new officers were president, Mrs. G. L. Robinson; vice president, Mrs. Hobart McManigal; secretary - treasurer, Mrs. Willard Middleton.

Mark Nickols, project chairman, announced that a projector will be bought for the year's project. Arrangements were made for delegates to attend the district conference in Hereford, April 17. The junior class won the room prize. Refreshments were served to 60 members and guests.

Rutherford bids U. S. speed peaceful use of atom.

Fertilize Pasture For Better Grazing

COLLEGE STATION—Producing pasture plants remove plant food from the soil and unless the losses are replaced, production and the quality of the forage drop, says E. M. Trew, pasture specialist for the Texas Agricultural Extension Service.

A ton of grass hay contains about 30 pounds of nitrogen, 10 pounds of phosphoric acid and 30 pounds of potassium or the equivalent of 100 pounds of ammonium nitrate, 50 pounds of 20 per cent superphosphate and 50 pounds of muriate of potash.

A ton of legume hay contains about 25 per cent more of each plant food element than grass, says Trew.

To keep pasture yields and quality high, the specialist suggests using plenty of the proper kinds of fertilizer. A soil test is suggested as the best means of determining fertilizer requirements, and is described by Trew as the best fertilizer dollar which can be spent.

He says phosphate and potash should be worked into the soil either ahead of or at planting time with temporary pastures and as a part of the renovation or cultivation of permanent pastures.

This is especially true on blackland or other heavy clay soils which are high in lime and where phosphate and potash should be banded for most efficient use.

Nitrogen may be applied to the surface and should be used when adequate moisture is available. Dry fertilizers containing nitrogen should not be applied when plants are wet, explains Trew.

Warm season grasses in permanent pastures such as Bermuda or Dallisgrass may be fertilized in the fall or winter or in the spring before summer plants begin growth. Additional nitrogen applied in the spring and summer will stimulate growth and increase the protein content of the plants.

From 30 to 60 pounds of actual nitrogen an acre is recommended each time the plants are grazed down and when the soil is moist. Cool season grasses such as fescue should be fertilized in the early fall ahead of the growing season.

Dr. Tolliver At Southern Meeting

Dr. Crannell Tolliver, head of the speech department at West Texas State College, attended the annual convention of the Southern Speech Association April 3-7.

The association met in the Forest Hotel in Hattiesburg, Miss., with Mississippi Southern College as host. Dr. and Mrs. Tolliver spent Easter in New Orleans.

Enroute to the convention, he visited several new college fine arts buildings. West Texas State plans a new fine arts building in its future expansion program.

We invite you to try GMC's

great new RSD* ride

-makes roughest roads boulevard-smooth

IT'S A FACT—the new 1956 GMC pickups with exclusive Road Shock Damper Suspension give you a ride comparable to the finest passenger cars in smoothness.

Gone are jolting jounces, front-wheel slither, steering-wheel jitters. GMC's amazing RSD ride makes the roughest road boulevard-smooth—eliminates even the drumming from expansion joints on superhighways. No longer need you slow down for rough going. Wheel-hop is ended. Travel is safer—steering easier—driver fatigue greatly reduced. And fragile loads are protected from breakage.

Only an actual ride can show you what a sensational improvement RSD Suspension is. We invite you to try it—over the roughest road you know. Come in today for a demonstration.

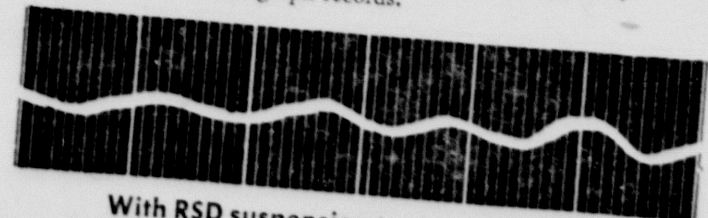

*RSD Suspension is standard on the Suburban—optional at slight extra cost on other 4-ton models.

Only pickups with these Blue Chip Features • New 180-h.p. V8 and 130-h.p. six engines with the largest displacement in the industry • New optional fast-cruising axle ratio and Safety Power Steering • New Kudu Stabilizer • Tubeless tires and 12-volt electrical system are standard equipment.

See the difference RSD makes

With ordinary suspension wheels hop and bounce violently on rough roads as shown by actual oscilloscope records.

With RSD suspension (on the same road) every wheel bounce is instantly counteracted, smoothed out to a mere flutter on the oscilloscope.

College Election Planned Friday

A student body president and four representatives from the three upper classes will be elected Friday at West Texas State College in campus-wide balloting for Student Senate officers for the 1956-57 session. Run-offs will be held April 11.

Four candidates have filed for the student body presidency race, while 32 nominees are in the running for senate posts. An amendment to the Student Association constitution recently adopted, established a fourth senate post for each class. Freshman representatives will be chosen in September.

Also appearing on the ballot Friday will be a proposed amendment establishing a "Supreme Court," composed of student senate and advisory council members, to handle infractions of Student Union Building regulations. A two-thirds majority of votes cast is necessary for adoption.

Presidential candidates will campaign in a special election assembly Thursday, and senate candidates will also be introduced. Cheerleader candidates will be given tryouts during the assembly, and will be elected at the close of the program.

In the race for the presidency are Herman Betke, Borger junior; Bill Marmichael, Hereford junior; Carroll Hall, Amarillo sophomore; and James Oswald, Plainview junior.

Senior senate candidates and their posts are: Post 1, Ralph Green, Canyon; Verdi Knox, Canyon; Floyd Henson, Canyon; and Dolores Rohan, Panhandle; Post 2, Dean Kelley, Amarillo, and Teddy Reddick, Phillips; Post 3, J. T. Hill, Canadian; Gene Ledbetter, Amarillo; and Gladys Parkrey, Floydada; Post 4, Bob Hood, Borger, and Carolyn Husbands, Amarillo.

Juniors are: Post 1, Fredie Jo Carter, Sunray, and Jeanette Faulkenberry, Seagraves; Post 2, Jim Cabbell, Borger, and Rosemary McDonald, Lockney; Post 3, Ray Coker, Amarillo; Peggy Jones, Borger; Catherine Prince, Amarillo; and Jack Spray, Matador; Post 4, Beth Bulls, Muleshoe, and Bob Wilkinson, Canyon.

Sophomore candidates are: Post 1, Dewayne Neel, Enochs, unopposed; Post 2, Kay Brown, Stinnett; Michael A. Larkin, Canyon; Ann Moore, Canyon; and Dolores Rummage, Denver City; Post 3, Camal Dakil, Shamrock; Linda Lewis, Rule; and Janell Parr, Ft. Stockton; Post 4, Jim Bowen, Du-mas; Johnnie Davis, Pecos; and Ted Sumner, Hereford.

Yarborough Runs For Governor

Ralph W. Yarborough of Austin, pledging to "build a structure of morality" in state government, has announced his candidacy for the Democratic nomination for governor of Texas.

Yarborough announced a platform "of progress including water conservation, drought relief, higher old age pensions, improved schools with adequate teacher pay and adequate retirement pay, adequate classroom space, a youth development program, a juvenile delinquency program" based on "broad general humanitarian principles." He said he would take his campaign in person "to the people in every corner of this great commonwealth."

Yarborough made his announcement simply, to the press, in contrast to the statewide radio and television broadcasts of other gubernatorial contenders.

"Humbly, I accept," Yarborough said, "the commission of duty you have given me in tens of thousands of messages . . . to lead the fight for the good name of Texas."

"The people of Texas want a new state government, free of entangling alliances and partnerships with the outgoing administration. Texas wants a state government free of the policies of the past and capable of independent action."

Yarborough added: "I pledge the people of Texas the restoration of honor, integrity and dignity in their state government."

"To every one of the 683,132 Texans who voted and worked with us in the hard campaign of 1954, I extend my thanks and gratitude. I urge each of you, and all Texans who believe in the triumph of honesty and morality, to join us in this crusade for a new administration in Texas."

Classroom Teachers Hear Mrs. Reeves

The Classroom Teachers of the Canyon public schools met Tuesday afternoon in the Grade School All Purpose Room. Mrs. Glenn Dowlen presented her fourth grade pupils in songs from other lands.

Mrs. Isabel Cousins, program chairman, presented Mrs. T. V. Reeves, who told of her visit to schools in Hong Kong and the Philippines.

Mrs. Nell Findley presided at the short business meeting. Sidney Burgess, Oscar Schuette, G. D. Inman, Luther Lawless and Loyd Devin acted as hosts and served frosted cakes to the group.

The regular meeting in May will be a dinner meeting.

Mr. and Mrs. Robert Young of Lubbock spent the Easter holidays in the Clyde McElroy home. Mrs. Young and Mrs. McElroy are cousins.

*LOSE A POUND A DAY... FOR 14 DAYS Without Suffering Hunger Pangs Or Loss Of Energy!

To reduce we must eat less (fewer calories) and when we do, we may feel the uncomfortable, almost painful pangs of hunger. We may also become nervous and irritable because of the lack of sufficient vitamins and minerals in a restricted diet. With Kessamin Tablets, Formula #14, and the Kessamin Reducing Plan this can never happen!

SEE WHAT THE KESSAMIN REDUCING PLAN OFFERS!

1. A reducing diet (The Kessamin Booklet) prepared by a physician and a dietitian to give best possible diet.
2. Vitamins to prevent deficiencies which cause nervousness, irritability and tired, dragged-out feeling. Also supplemental minerals and iron to help prevent nutritional anemia.
3. Vitamins plus the bulk, Carboxy Methylcellulose, to stimulate normal intestinal elimination.
4. The "hunger control" factor, Carboxy Methylcellulose, to reduce hunger if taken according to directions.

*See your druggist. The complete Kessamin Reducing Plan is in every package of Kessamin Tablets, Formula #14. THE KESSAMIN REDUCING PLAN IS GUARANTEED TO TAKE OFF A POUND A DAY FOR 14 DAYS OR YOUR MONEY BACK! TRY IT!

Around the Town . .

By DOVIE CHERRY

"Yipes, the price of tomatoes," cries the housewife as she madly almost banishes tomatoes from the family diet. But there is one woman in town, Mrs. Lessie Stevens, who remains cool and calm in the red hot face of rapidly rising tomato prices.

No, she didn't discover a uranium mine in her backyard, but she did discover something almost as nice, a built-in tomato factory. That's right. Ever since January a tomato plant in the Stevens' greenhouse has been growing and growing until now it's about to burst its bristles and also burst out of the greenhouse.

To say the least, it is one "humbler" of a tomato plant. Approximately 10 feet long, it starts under the planter table, goes all the way up the tall trellis and part of the way down the opposite side of the trellis.

And every inch, covered with dark green leaves and glossy red tomatoes, is as healthy a specimen as you could hope to see. The base of the plant is a full thumb and forefinger around.

The plant, a Big Boy hybrid, bears large red balls of fruit which are nicely shaped and are firm and fine textured. It's not an old miser with its produce either—more than five gallons since January. Mrs. Stevens reports she gathered half a gallon Saturday.

What makes having the tomato plant doubly nice is the fact that it was all a surprise. Mrs. Stevens hadn't planned this generous red covered giant. She guesses it started when a seed fell onto the ground beneath the planter table. Mrs. Stevens says, "I am amazed that the plant has been able to grow so large especially since it was near a burner and exposed to heat. You just have to see the plant to appreciate it."

One man in town says he plants two of the Big Boy plants every year and that the two produce enough tomatoes to supply his family through the summer.

This tomato phenomenon has tempted Mrs. Stevens to try more of the same and she is contemplating the idea of planting Big Boy plants in her greenhouse.

Still more news on the column about the oldest house in town. J. McDouall writes:

"There are many houses in town older than the Keiser home or Dr. Black's old home. For instance the Pierce's home, the Lester's, the John Davis's, the next two houses on the same block west, or the old McElroy home still farther west. Oh, I could name a lot of older ones than those mentioned in the paper.

"The Foster home was once Canyon's only hotel. A family story goes that 'Uncle Lum' (I'm not sure of the name) would assure his table customers, 'Help yourself, boys. There is plenty more in de skillet.'"

"Then he would go to the kitchen. If they were out of food, he would be seen streaking it off to town, and the women were left to report the situation to the tables of hungry customers."

The arrival of Spring and the Easter holidays has been and left an aftermath of refreshed interest in the outdoors, flowers, lawns and gardens, crisp, warm weather clothes and . . . well, what do you know, some little colored chicks and sticky Easter eggs.

Yes sir, the peep, peep, peep and the click, click, click of multi-colored chicks was still around this week to remind us of the Easter holidays. And as the days went by, weren't you, ahem, amazed at the stamina of the feathered friends?

Enjoyed a ham casserole the other day. It is very simple to make too. All you do is place soft bread crumbs sprinkled with cheese in a greased casserole. On this you place a layer of cooked asparagus strips, a layer of creamed ham and over this sprinkle more bread crumbs and cheese. Brown the casserole in a 350 degree oven until brown and serve.

Bill snorted several weeks ago that "women are always so surprised when a man goes into the kitchen and turns out something tasty" and that he "didn't see why because men were naturally better cooks than women anyway."

Well, since I've been in bed for a few weeks, he has had good opportunity to prove that statement. I must admit though, but only to myself, that I haven't suf-

Eunice S. S. Class Meets with Mrs. Hart

The Eunice Sunday School class met March 27 with Mrs. Silas Hart. The meeting was opened with a song, "Christ Arose." Mrs. C. A. Castleman led the group in prayer. The devotional, "Resurrection," was given by Mrs. Castleman. Members answered the roll call with Bible verses.

Mrs. Henderson, chairman, presided at the business meeting.

Refreshments of angel food cake, ice cream and strawberries were served to Mrs. Castleman, Mrs. W. H. Sparks, Mrs. Mae Johnson, Mrs. H. Cook, Mrs. G. B. Heath, Mrs. Prichard, Mrs. George Wright, Mrs. Schaeffer, Mrs. Davis and the hostess.

Reynolds Hostess Las Amigas Club

Mrs. W. T. Reynolds was hostess to the Las Amigas Home Demonstration Club March 22. Mrs. Emma Olson was in charge of the program on Finland.

Refreshments were served to Mrs. Francis Cox, guest, Mrs. Glen Costley, Mrs. Bob Costley, Mrs. A. W. Lair, Mrs. Don Olson, Mrs. Pete Fischbacker, Mrs. Olson and Mrs. Calvin Costley.

The next meeting will be April 12 with Mrs. Emma Olson.

ferred.

On one dish especially he almost went wild proving his creative genius. The specialty was meat loaf made with 14 ingredients. This included ground beef, egg, tomato, bread crumbs, mustard, salt, pepper, garlic salt, oregano, chili pepper Worcestershire sauce, catsup, marjoram, onions and (burp) said he thought about adding a little olive oil.

Muy beuno! Vive la stomach!

THE JOKER'S ON YOU

One young man was showing his wife how to play a game of solitaire that was a cinch to win at least one out of two games. He began with an air of authority, briskly placing cards on the table. When he failed to win one out of two, he laughed and said, "Oh, well, there will be exceptions."

Three, four, five, six, seven, eight games—no win. There was a puzzled look on the man's face and the wife was trying to look respectful.

After the 25th game, the fellow was working up a sweat, his tie was loosened, he was chewing his tongue in concentration, and over and over he was bewilderedly muttering, "I don't understand. I just don't understand."

At this point his wife timidly approached him and said, "Honey, I put three queens of spades in the deck. Would that make any difference?"

Did you notice that the girl on the cover page of the April issue of Ladies Home Journal is Susan Strasberg, 17 year old star of her first film, Picnic?

I was surprised to read that Susan is the youngest star to have her name in lights on Broadway, and that she is extremely near-sighted, so much in fact that it is believed that she can't see across stage.

Picnic will show in Canyon April 15-16 at the Varsity Theatre.

There's the hat, where's the lady?

New trend in ladies' millinery. It seems the large lamp shade style hats will be the rage this season; hats so large that extra eye make-up is a must to keep your eyes from "being lost" beneath wide brims.

I don't know if this causes a lurch of ecstatic joy and pleasure in me or not. In fact, I think it would be better stated to say lurch and stop there. These copious headgears give me the feeling of being hidden under a washtub. Well, maybe not that kind of feel-

Good Fishing Causing Abuse

AUSTIN—Exceptional fishing in some fresh water areas this spring has prompted some abuses of the state laws on creel limits, reports E. M. Sprott, director of law enforcement for the Game and Fish Commission.

He said field reports indicate "several" of the anglers either did not know the limits on various species or were too busy pulling in their catch to determine whether their string was legal.

The director said the principal abuses were simply in catching too many fish but that some cases were made for keeping fish that were too small. He added that the principal complaints were for taking too many crappie or white perch which have been biting ferociously in many areas.

Wardens also cited a substantial number of cases involving too many black bass. Some persons have been found with as many as three times the limit on crappie.

The limits on different species oftentimes vary by localities but here is the official bag limit as prescribed by the Legislature:

Large-mouth black bass, small-mouth black bass, spotted bass, or any subspecies of these fishes, singly or in the aggregate, fifteen (15), of which not more than ten (10) shall be of greater length than eleven (11) inches; white bass, twenty-five (25); blue catfish, channel catfish and yellow catfish, singly or in the aggregate, twenty-five (25); crappie or white perch, twenty-five (25).

In those counties where sale of catfish is permitted, this limitation as to possession of catfish does not apply to persons having a commercial fisherman's license, wholesale fish dealer's license, wholesale truck dealer's license, or retail fish dealer's license. Sale of bass or crappie or white perch prohibited in all counties.

Sprott said many persons were becoming involved because of ignorance or indifference toward fresh water fishing equipment. He quoted the General Law:

Ordinary pole and line, set line, trotline, artificial lures and seines or nets of not less than three-inch square mesh permitted. Seine or net made of wire or other metallic substance is prohibited. Minnow seines not more than 20 feet in length are permitted for taking minnows and rough fish, and fruit jars with funnel attached are permitted for taking minnows. Cast nets permitted on rough fish. All other methods or means of taking fish are prohibited unless specially noted on the local level.

Sprott cautioned that persons in doubt about licenses requirements, bag limits and fishing equipment should consult the Game and Fish Law Digest or a local game warden.

Robinson to meet Olson in title bout on April 27.

The changing view of how to treat "older ladies" is one of the interesting by-products of sped-up living.

"Girls are so ill-mannered these days," we heard a youngish woman say the other day. "They aren't considerate of older women at all." As she and an "older woman" who agreed with her bemoaned the situation, we made a hasty inventory of our own attitudes on the subject. Maybe they are conditioned by some things that happened back when we were on the right side of forty.

One incident was of a college housemother who insisted on our standing when she entered the dining room. She was a bit on the boisterous side when off duty, and did all of her own work. After then girls jumped up for several weeks every time she went to the kitchen to fetch a plate of biscuits, even she saw the ridiculous side of it and lifted the injunction.

Another strong memory was of a woman we offered a seat on a subway in New York. She gave us a scathing look and said tartly, "No, thank you!" From then on, we tried to size up a woman before we treated her as "older."

Now that we're crowding the category ourselves, we are amazed to find we agree with the rude woman of the subway. Our New England daughter-in-law has learned to call us by our first name, Louise. The neighbor's children call out, "Can we come over, Woo-wee?" We're delighted when a young girl says "Hi!" We're annoyed by a young woman's helping hand in a restaurant or on a mountain path.

We are, in fact, still young in heart, and any artificial show of homage strikes us as outdated and downright unnecessary.

The annual Cherry Blossom Festival in the nation's capital is scheduled to begin April 13, unless Mother Nature turns a cold shoulder on Washington. The six-day event is expected to attract half a million visitors.

Federated Clubs Hold Luncheon

The Federated Study Clubs of Canyon held a joint luncheon Tuesday in the Blue Room of the college cafeteria.

Mrs. Bob Lindsey of Borger, district president, spoke to the groups on "Why I am a Club Woman."

Mrs. Lindsey reviewed the history of the Federated clubs which

was founded by Jennie June Crowley. She told of the activities of the past that have made our life better—promotion of the Pure Food and Drug Act, the model home, the census of American cities and, even the changes in women's dresses.

Mrs. Lindsey is promoting the thought of Youth in Federation Work. In taking the youth of the community and letting them participate in community affairs they are "breaking the earth to plant the tree." Later they will not want to destroy the tree they have worked hard to plant and nourish, she said.

Tables were decorated with miniature Easter baskets, eggs, grass and pear blossoms. The String Orchestra of West Texas State college played musical selections during the luncheon. Mrs. H. R. Fulton Jr. presented two vocal selections, accompanied by Mrs. R. E. Barnard.

Mrs. Don Standley, president of the Junior Woman's Book Club introduced the president of the Sue Hite Club, Mrs. Otis Parker, and the president of the Woman's Book Club, Mrs. L. A. Donnell. They in turn introduced the members of their club to the group. Mrs. Marion Hill of Borger was guest.

Do you step from your car looking your best?

Naturally, you want to arrive as well groomed as when you left home. Hair softly in place, protected from wind. Your costume crisp, not humbly limp. Make-up still satiny, no trace of a shine.

That composed looking person on the right does it — even on the hottest day. Her car is cool — Mark IV equipped. Closed windows keep wind and noise outside. And her disposition is as smooth as her grooming — all summer long. Makes a Mark IV auto air conditioner a bargain even before you hear the low price, doesn't it?

Modern feeding methods have taken the guesswork out of hog feeding. Today you know, even before you start, how much feed it should take to put your hogs across the market scales. And, on the Purina Program you know that 5½ months is plenty of time to get hogs to market weights.

The Purina Hog Program itself is just as simple as good nutrition will allow. Even if you have no grain, there's a Purina ration ready to feed right from the bag. Purina recommendations on breeding, feeding, sanitation and management are sound and practical—because they're based on more than 25 years of experience at the Purina Research Farm.

We'd like to see you give hogs and Purina a try on your farm. This combination has made money for thousands of people. Put it to work for yourself.

If you're thinking about hogs for your farm, we'll be glad to help you get started. Stop by soon and talk it over with us.

The Eagle's Tale

30th Year

Slow down at sundown.
Watch out for wacky walkers.
Slow up here and show up there.
A LITTLE chance makes a BIG crash.
You may be the world's best driver—but
what about the OTHER fellow.
It isn't the right-of-way that counts—
It's the right way.

Stop Slaughter!

Murder on the highways can be stopped by courtesy and defensive driving.
Many people think that they are good drivers as long as they obey the laws and mind their own business. Taint necessarily so. Defensive driving is anticipating the actions of the other fellow. It's not a superiority complex. It's assuming that every other driver may be a careless driver and thus reducing the chance for an accident. A good defensive driver can see situations leading to accidents and avoid them.
Courtesy is contagious. The characters who block sidewalks when they are pedestrians are the same ones who hog the road as drivers. These people aren't thoughtless on purpose. They just don't think about the other person. A good rule for driving is the Golden Rule: Do unto others as you would have them do unto you. If one drives defensively, and courteously, one is doing his share toward stopping the needless death rate of the highways.

Is D. E. Profitable?

Safety is a benefit for everyone and a harm to no one.
Today Texas leads all other states as the number one killer in automobile accidents. Should we as Texans be proud of that rating?
In 1955 alone, 2,540 persons were killed in auto accidents, 100,000 were sent to hospitals and four and four-tenths billion dollars were lost.
At Crozier Tech a record was kept of 400 students. Two hundred of these students had taken driver's education and the other 200 had not. The 200 that had driver's education received only 28 traffic tickets over a period of one year and the 200 who had not taken driver's education received 478 traffic tickets.
At a Negro school in Dallas, a record was also kept of 96 students who had taken driver's education. Over a period of one year only two were involved in accidents and they were non-chargeable.
It has been said that to prevent accidents eliminate all vehicles from the road that have not been paid for. Do you think this would be wise?

Canyon High Will Host Galvanos

A Southern School Assembly will be presented in the CHS auditorium on April 4. This assembly will feature Mr. and Mrs. Mark Galvano, who play electrified instruments, such as Hawaiian guitar, violin, Spanish guitar, Chinese fiddle, and electric ukelele.
A native Hawaiian, Mr. Galvano was brought to the United States when he was 10 years old. He studied music at Oakland and San Francisco. He and his brothers made tours and records under their mother's name, Kailimal. For the past 10 years, Mrs. Galvano, a native American, has traveled with her husband as accompanist.
The haunting melodies of the Hawaiian music have endeared themselves to Americans for a quarter of a century.

Canyon Trackmen Dominate Meet

Sweeping the field with seven first and three second places, the Canyon track team emerged victorious in the Friona Relays on March 24.
Charles Neblett and Melvin Cunningham again led the Canyon team by taking two first places each. Neblett won the 100 yard dash and low hurdles, while Cunningham placed first in the high jump and pole vault.
Other Canyon trackmen taking first places were Elston Burkham, shot putt; Richard Burgess, discus; and Harlie Adams, 880 yard run.
Canyon boys winning second places were Cunningham, broad jump; Burkham, discus; and Neblett, high hurdles.
Neblett gave Canyon its only third place in the broad jump. Cunningham, however, managed two fourth places in the high hurdles and low hurdles.
In points, Canyon was far ahead with 47. Springlake was second with 22 points while Hereford in third place had 17.
On April 7, Canyon will participate in the district track and field meet in Buffalo Stadium at West Texas State College.

Prof Highlights

Art today affects the lives of every individual whether he is schooled to recognize it or to make wise use of it. In the cultural or business world, art is an asset and sometimes makes the difference between success and failure. Art is not artificial but comes directly from the way a people or an individual works, thinks, and feels. It is for everyone who loves the beauty of a blossoming tree, a colorful salad, or the jet's vapor trail that divides blue sky.
Art courses help the young develop his abilities, increase his knowledge and broaden his appreciation. He accomplishes these by the many experiences that heighten observation, and develop imagination, inventiveness and sensitivity.
Many opportunities to make choices and decisions relating to the color, texture, size and form of objects help one to select with understanding, and without prejudice or fear. The use of materials at home or school to create something beautiful makes art practical as well as enjoyable.
The objects created are sometimes abstract, sometimes naturalistic, but each represents some person's progress in understanding.
One who enrolls in art soon learns that a student who models a head learns more about drawing it and also that drawing alone is not all of art; that intelligence and industrious habits are essential to success in art as in any other undertaking; and that art causes one to be happier in the world we have too often taken for granted.

Senior Class Presents Suspense Play

Canyon Is Fourth In Play Contest

"Do you mean to tell me this check is not good?" questioned Slat Wheeler, portraying a businessman, of Arthur Lee Pruett, who was acting the part of another businessman's son. The hilarious answer was "No!"
This was a part of the one-act play presented by the speech class of Canyon High in assembly on March 21 and given in the district one-act play contest the following day.

The play, entitled "Yes Means No," placed fourth in the contest while Perryton and Phillips took first and second places respectively.

The play was the story of a businessman's son who had trouble saying no. To help his son overcome this, the businessman, portrayed by Jack Pruett, turned the office over to him during the noon hour and promised to give him \$100 for every time he said no on the condition that one yes would forfeit the bargain. The results were quite humorous.
The play cast also included Bernice Bob Woodward and Sara Jo Hickman.

Doubletalk

Almost every business has its own specialized speech. Below are some of the terms often heard in publishing work. Just for fun, see if you know the meaning of this apparent doubletalk.
Bleed (v.i.): To print over the margin to the edge of a page.
Broken-down figure (n): A statistic reduced to its component parts.
Cage date (n): Arrival date of circulation mail.
Dealer's draw (n): Number of copies a newsstand receives.
Dummy (v. t.): Sample issue showing where editorial material and ads will be printed.

Five Canyon Homemaking Students To Receive Highest State Award

applications at the meeting in Plainview, March 24.
Virginia Leake, who received her state degree last year, and Mrs. Five Canyon High School future homemakers, Vanda Lou Latham, Faye Lowrey, Debra McDonald, Theresa Mickey, and Marcus Robinson, applied for and received an evaluation committee approval on their state homemaking degree.

Two Will Journey To Workshop

Mrs. Cecil Simms and Mrs. Tom Beard will travel to Austin to attend a workshop for English teachers that will be held on the campus and the University of Texas in Batts Hall auditorium April 6 and 7. Both teach English.
The workshop is held in order to exchange information and to learn more about the variety of methods used in attacking the problems of English teachers. Dr. Margaret Bryant, who is chairman of the Committee on Current English Usage of the National Council of Teachers of English, will be the main speaker. Dr. Bryant has written several English textbooks.
The program will begin at 4:30 Friday with Dr. Bryant's keynote address. Other high points of the meeting will be a tour of the new English building, an informal dinner, and group discussions.

Golf and Tennis Get Underway

Canyon golf and tennis teams will compete in the Interscholastic League meets which begin April 6. The tennis meets will be held in Canyon while the golf is to take place at Pampa.
The tennis team, which is coached by Lawrence Brotherton, has not completed its eliminations because of bad weather, so the names of the players who will compete in the singles and doubles are not yet known.
The girls tennis team will be selected from Barbara Brown, Martha Harding, Johnny Weeks, Sandra Michael and Marcus Robinson.
The boys senior team will consist of Edwin Boswell, Arthur Harding, and Mike Wheeler, while Craig Hinger, Roy Harris, and Larry Brotherton will make up the junior team.
Members of the golf team are Dee Zane Pond, Pat Pond, Tommie Davis, and James Craig. The team, coached by Johnny Ussery, will travel to Pampa to enter the district meet on April 6.

FTA Will Hear College Reports

Members of the FTA club met in the home of Sara Jo Hickman March 19 for the regular monthly meeting.
The program consisted of reports from Theresa Mickey, Sara Jo, La Verne Riley, and Janis Wright who attended the state FTA meeting in Denton March 2 and 3.
Senior members are making preparations to report to the club on the advantages available to students in various colleges which Canyon High School graduates attend. The panel discussion is scheduled for the April 16 meeting which will be at the home of Janis Wright.

Spanish Club Gulps Enchilada Supper

An enchilada supper prepared by Mrs. Glenn R. Haynes was devoured by the members of the Los Picaros, Spanish club of CHS, Tuesday, March 27, in the home of Louise Higdon. Afterward, the Spanish Queen, Joy Gray, was crowned.
The enchiladas, accompanied by frijoles, sopapillas, and lemon thins and sliced peaches, were tucked away by the members and the sponsor, Miss Marilyn A. Payne.

A crown of pink carnations was placed on the head of Joy Gray. Carnations are one of the most popular varieties of flowers in Mexico. Attendees to the queen were Francis Boyd and her escort, Charles Neblett, Emma Coleman, and her escort, Bonnell Riley, and Janet Taylor, and her escort, Pat Pond. Dick Brackeen escorted the queen, who was presented with a gift after the coronation.

After the coronation, Charles Neblett, who traveled in Mexico last year, delivered a talk and showed some articles of interest. Among them were a beautiful cotton shirt with handmade buttons, a handmade silver belt buckle, and a white wool stole.
Certainly all of the club members want to thank Mrs. Haynes for the preparation of the meal and Mrs. Marion Higdon, in whose home the meeting was held.

Dimmitt Students Visit Canyon High

Approximately eight Dimmitt students and one sponsor, Mr. Smith, Dimmitt band director, visited the Canyon High School student council, March 20.
Members of the Dimmitt High School took part in a special meeting of the Canyon High student council in order that they might obtain information concerning the establishment of a student council.

At this meeting a discussion was heard on the various problems that arise concerning student council work. The Canyon Student Faculty Congress members informed the Dimmitt students what work they had accomplished this year and what goals they were striving to reach for the oncoming years.
After this one hour meeting the Dimmitt students were invited into the principal's office for a conference.

The Dimmitt students were then invited to spend the remainder of the day visiting various classes.

The senior class of Canyon High School presented "Man Alive," a suspense play, March 29 and 30 in the high school auditorium.

Starring in the play were Hubert Green, Don Duncan, Nancy Tomlinson, Garland Ruthart, Janis Wright, Virginia Leake, Jerome Edwards, Joan Payne, Kay Hubbard and Melvin Cunningham.

Impersonations were given by Kathy Truax, senior from Gruver, and a cornet duet, composed of Perry Slagle and Joan Gressett, played during the intermission.

The production staff consisted of directors, Mr. and Mrs. T. L. Devin, Miss Claudia Neelley; general chairman, Jerome Edwards; business manager, Dick Irvine; stage manager, Eugene Boston; and assistants, Jim Flynn, Arvie Marshall, Ralph Miller, June Gressett, publicity, Charlotte Crain, Gwen Carter and Marilyn Keller.

Volleyball Girls vie with Happy

The girls' volleyball teams journeyed to Happy for a game with the Cowgirls March 20. The Happy teams won both the A and B games.

The Canyon teams have only one more game scheduled before the district tournament which will be played in Dumas April 11. This game is slated for April 5. The tilt which will be played in the Canyon High School gym at 4 p. m. will be against the teams from Plainview.

Freshman Class Has Sock Hop

Approximately 40 members of the freshman class attended a "sock hop" in the cafeteria Friday evening, March 23.

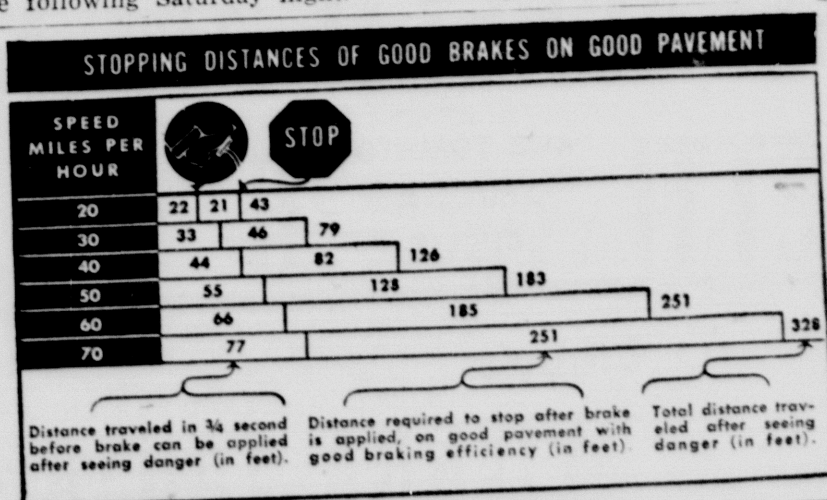

Prizes for the most unusually decorated socks were awarded to Carolyn Campbell and Roanna Day. Entertainment for the evening consisted of playing games, dancing, and eating refreshments.

West Texas FTA Gives Program

Five West Texas State College students presented a program on student teaching in Hereford Tuesday night for the Della Stagner chapter of the Future Teachers of America.

The group, accompanied by Dr. Ruth Lowes, professor of education, included Beth Smith, White Deer; Claranel Brown, Childress; Lyle Byars, Follett; Gene Murray, Childress; and Wilma Lee Mickey, Muleshoe.

Demaret takes Coast golf with 72-hole score of 269.

Rebekah Lodge Met Wednesday

The Canyon Rebekah Lodge 350 met Wednesday. Two new members were voted in for initiation. Mrs. Pearl Bowman gave a report on the Assembly at Dallas. The lodge deputy, Mrs. Myrtle Stratton, was honored for good work done the past year for Rebekah Odd Fellowship.

Mrs. Mae Johnson and Mrs. Maye Bond served angel food cake, sandwiches, and punch to Mrs. Gladys Pitt, vice grand, Mrs. Dollie Taylor, Mrs. Myrtle McLaughlin, Mrs. Bowman, Mrs. Myrtle Sparks, Mrs. Tommie Burgess, Mrs. Hattie Brasuel, Mrs. Myrtle Wester, Mrs. Margaret Cole, Mrs. Stratton, Mrs. Isabelle Dickerson and Miss Columbia Redfern.
